

## FIRE IN NOTED HOTEL ROUTS SIX HUNDRED

Vice President Coolidge and Other  
Prominent Folk Driven to  
Street in Early Morning

OVER \$100,000 LOSS

Blaze, Which Originates in Ball  
Room of New Willard, De-  
stroys Top Floor

Washington, April 23. — Vice President Coolidge, several members of the cabinet and house of representatives, and many other persons prominent in public, business and social life, were driven from their beds at the New Willard hotel who were routed out of their beds at an early hour this morning by a fire which swept the top floor of the ten-story graystone structure at Pennsylvania avenue and 14th street.

The blaze had its origin in the ball room on the tenth floor, where a few hours before President Harding, Mr. Coolidge, members of the cabinet, senators and representatives, foreign diplomats and others had banqueted, guests of the Gridiron club at its annual spring dinner and frolic. The fire was confined to that floor and the room above, but on its way down it caused much damage. Hotel attaches, police and firemen rushed on doors and the telephone operators on duty called room after room, and all those in the hotel got out of their apartments to the corridors and lobbies in safety. Many went to other hotels, carrying at least part of their luggage with them, but others remained at the New Willard and returned to their rooms after the fire had been extinguished.

Origin Still a Mystery.

How the fire started may never be explained, but one theory is that a cigarette or cigar stub cast aside at the close of the Gridiron dinner found lodging under a rug or in a rug or old of heavy draperies. It was 5:45 o'clock when a passing policeman noticed smoke coming from the tenth floor window. He turned in an alarm and then rushed into the hotel and informed the night clerk.

Several fire companies were on the scene in a few minutes. The clatter of fire hoses awoke Vice President Coolidge, who upon going to a window in the apartment he occupied, discovered the fire. He called Mrs. Coolidge, remarking that there was a fire in the neighborhood and suggested that they go out to see it. While they were dressing they learned that the fire was in the hotel. Leaving their apartment on the third floor, they descended to the lobby where they found Vice President Coolidge.

Mr. Coolidge remained at the hotel, here he was again joined in the afternoon by Mrs. Coolidge. He is the second successive vice president of the United States to have experienced a fire in the hotel. A blaze which routed out Vice President and Mrs. Marshall late one night nearly a year ago.

President's Physician Routed.

Belgian General C. E. Sawyer, personal physician to President Harding, and Mrs. Sawyer were awakened by hotel attendants and later found their apartments were considerably damaged by water and upon their return to the hotel they were met by attendants who had been occupied by residents-elect upon the eve of their inauguration.

As guests made hasty toilet, firemen from companies that had been summoned from many parts of the city invaded the hotel by scores to begin their four-hour battle with the flames. The hotel attendants hurried from room to room aiding in removal of trunks and other luggage.

Some of the women came down with their arms loaded with silk lingerie which they dumped into chairs in the elevated "Peacock Alley" and in the adjacent "blue room". Later, the women packed their wardrobes in trunks. Nearly all the guests, men and women alike, carried their most prized possessions with them from their rooms. One man arrived in the alley clutching the neck of a large bottle of a color and shape well known to the pre-Volstead days. In the case of one woman guest, a poodle dog escaped out from the folds of a case.

Water Invades Main Floor.

Those who had taken refuge in the "blue room" found that it was water which had poured down the stairways and across halls, damaging costly carpets in its course, began to sweep upon them.

Before that, it had found its way into the elevator shafts and mail boxes, filling up and overflowing the mail boxes on the main floor.

Invading the mezzanine, water seeping through the crevices trickled down the side of a huge ornate column in the main lobby. The main dining room remained dry, however, and as the women battled nine stories above, scores of guests ate breakfast, taught and chatted as though nothing unusual had happened.

While unofficial estimates of the damage by fire and water ranged all the way from \$100,000 to \$300,000, Frank J. Hight, managing director of the hotel, said the loss could not be determined until a more thorough examination could be made by experts.

Everything on the tenth floor was wiped out, the flames eating through the roof and burning out all window shades. Smoke and water caused some damage on floors below, but within a few hours after the fire had been subdued, many of the rooms

## GOMPERS CONTINUES PROTEST ON STAND

Let Building Trades Unions Put  
Own House in Order, He Tells  
Lockwood Committee

New York, April 23. — Samuel Gompers, president of the American Federation of Labor, appeared before the Lockwood investigating committee Saturday to keep hands off organized labor, and let unions of the building industry put their own house in order.

When Samuel Untermyer, counsel for the committee, asked Mr. Gompers what he would say if he knew the committee contemplated recommending to state legislature that laws be enacted "to halt the abuse of power by labor unions, by holding union members responsible, as individuals, for losses sustained by contractors through these abuses," the veteran leader half rose from his seat and replied:

"I should not only object; I should protest such action."

Asked what alternative there might be, he said, "Patience, while organized labor exerts itself to correct these abuses in the organizations."

Then at the suggestion of Mr. Untermyer, he offered to "do all in his power" to bring the unions of the building trades industry to cease practices which he confessed were "unfair, unwise, uncalled for, and not in keeping with the principles of labor."

He declared, however, that relief must come from within the American Federation of Labor, not from new laws, which he asserted "you can't bring the American workman into a legal straight-jacket."

Mr. Gompers had been on the stand since Friday, when as a "voluntary but unwilling witness" he appeared at the opening of the committee's investigation "into labor and labor abuses in the building trades." At the close of yesterday's session, the committee adjourned until May 3, when Mr. Gompers will be asked to resume his testimony.

## LEVEE THREATENED; MEN HARD AT WORK

Special Trains Rush Help to Dis-  
trict Threatened by High Wa-  
ter in Mississippi

Memphis, Tenn., April 23.—Many plantations back of Keefoot levee, south of Hickman, Ky., are deserted tonight, following additional caving of the river banks outside the levee. The levee is still intact, but the slough of the bank, throwing the current above the threatened levee, causes many to move, taking their livestock and household goods with them.

At all of the threatening points north of Vicksburg, engineers report the situation well in hand.

Practically the entire population of Hickman and surrounding territory worked all day on the Keefoot levee, which protects 7,800 acres of rich farming land.

The United States engineer's office here tonight sent laborers and engineers to the threatened district and a carload of sandbags will be on the ground in the morning. An entirely new levee is being built back of the caving area.

All along the Mississippi, repair and topping work was rushed today with thousands of men and all available teams working in relays. At Tunica, Miss., where serious trouble was reported yesterday, a new levee constructed above the threatened levee was reported to have deflected the current so as to lessen its danger.

At Stopp's Landing, where caving has been taking place, large forces of men are at work day and night and the embankment has been built a foot above the present levee.

In the southern part of Bolivar county, where ten miles of embankment was reported in poor condition, thousands of men from the surrounding plantations were engaged in topping the entire section. At some places, the water was running over the top of the levee.

More than 3,000 men are at work on a 12-mile stretch of embankment at Scott, Miss. Special trains were run into this section during the day bringing a thousand more laborers from the territory in the Yazoo delta flooded with backwaters.

Million Dollars Damage.

New Orleans, April 23.—A break in the Mississippi river levee at Myrtle Grove, 30 miles south of New Orleans, today flooded more than 6,000 acres of sugar cane plantations with an estimated damage of \$1,000,000. Every effort to close the breach has been unsuccessful and the waters at last reports were spreading over cultivated land two miles above the break and to a point three miles below.

Levee engineers, after a conference today, decided to give up attempts to bar the gap and in its stead to "die" the broken levee with tarpaulins in hope of preventing further washing.

## NEW YORK TO CONSIDER HELP FOR UNEMPLOYED

New York, April 23.—Relief measures for New York's estimated 325,000 unemployed persons, recommended by the Brooklyn Chamber of Commerce and endorsed by Bishop Manning, Archbishop Hayes and other clergy, jurists and labor representatives, will be considered at a hearing before the city board of estimate and apportionment on April 25.

The program, advocated in a statement declaring the unemployment situation throughout the country is still acute, called on the national and state governments to inaugurate road building, modern housing, irrigation and draining projects, scientific farming, water power development and harbor and river improvements as remedial measures.

## BISHOP BLAMES WOMEN'S STYLES FOR WORLD TURMOIL

Manchester, N. H., April 23.—Bishop George A. Guerin of the Catholic diocese of Manchester, in a sermon today, asserted that modern styles in women's clothing were "directly responsible for much of the turmoil in the world today."

## MARY GARDEN RETIRES AS CHICAGO OPERA DIRECTOR

Chicago, April 23.—Mary Garden announced tonight her retirement as director-general of the Chicago Opera company, a position which she has held for the past year.

"I am an artist and I have decided that my place is with the artists, not over them," she declared in a statement which was taken as an indication that she would remain with the organization as a singer.

## ALBANY MAN SLAYS SISTER IN HOME

William B. Allendorf Also Critically  
Wounds His Nephew in  
Early Morning Quarrel

Albany, April 23.—Mrs. Ella Crawford, 51, was shot and killed, and her son, Virgil T. Crawford, 22, seriously wounded early today in the Crawford home. William B. Allendorf, 42, Mrs. Crawford's brother, arrested on a homicide charge, told the police that he had shot in self-defense but Crawford, during a brief period of consciousness, declared his uncle started shooting when told to leave the house.

For several weeks, according to Crawford, his uncle, out of work, had been living at his home. He said that this morning Allendorf resumed his habit of fault-finding and was told that if he did not like his place he had better leave. Crawford said his uncle became enraged and drawing a revolver from his pocket, shot him, and then his mother, Mrs. Crawford, died almost instantly while the young man struck below the heart, was taken to a hospital, where it was said his condition was critical.

Allendorf was arrested a short time later at his former boarding place, saying to the police when they approached: "Here I am, take me."

His story to the police was that he had been after his nephew and started for him with a carving knife and his sister had threatened to hit him over the head with a chair. Crawford died at a hospital late tonight.

## PRESIDENT URGES SPECIAL THOUGHT FOR THE CHILDREN

New York, April 23.—A special thought for children of America who have only the streets in which to play was urged by President Harding in a letter to the Playground Recreation Association of America, endorsing Children's Week April 24 to May 1, to arouse interest in the movement for more playgrounds and more supervised recreation.

"We are all too sadly familiar," the President wrote, "with the great number of accidents to children playing in the streets, because they have no other place to play."

## GERMAN-FINNISH AGREEMENT

Berlin, April 23.—A German-Finnish agreement was signed here yesterday regulating economic questions between the two countries, according to a semi-official announcement. The agreement pledged both parties to early negotiations for an economic convention on a broader basis.

## ATMOSPHERIC PHENOMENON Startles Jersey Folks

Asbury Park, N. J., April 23.—Gaseous odors flashed through space to the south of this place at 9 o'clock tonight, disappearing in a thunderous roar and frightening residents of many coast towns.

Window panes in residences at Toms River were shattered by the explosion and the gas, polluting the atmosphere for more than a quarter of an hour, compelled the residents to hold damp, lined handkerchiefs to their nostrils. In Lakehurst, many of the buildings were shaken, as if by an earthquake, but the gas was not noticed.

A party led by two town officials, has set out for the spot at which the meteor fell. It is believed the spot is near Brown's Mill-in-the-Pines, a village 30 miles from here.

## BORAH TELLS WHY HE OPPOSES BONUS

Would Use People's Money to Buy  
Somebody's Vote If He Sup-  
ported Measure, He Says

Washington, April 23.—Senator Borah, Republican of Idaho, states in a letter to the Pocahontas (Idaho) post, American Legion, that if he voted for the soldier bonus bill "it would be a simple matter of barter; in which I use the people's money to buy somebody's votes." The letter was in response to a telegram received by the senator from the Pocahontas post and was made public tonight by him.

"I observe in your telegram," it says, "the threat which you implicitly make as to future political punishment. It was wholly unnecessary for you to make this threat. It reflected no credit upon you, and it has had no effect whatever upon me. When you come to that fight in which you purpose to inflict punishment, you will doubtless be able to shun many things in the way to secure upon my public record."

"But one thing, neither you nor anyone else will be able to say, and that is that I ever sought to purchase political power by driftings upon the public treasury, or that I chose to buy a continuation in office by putting \$4,000,000,000 upon the bonded backs of American taxpayers."

"I haven't much respect for the man who buys office, even though he pays for it with his own money. But the most stingy creature which disgraces American politics is the man who buys office by paying for it with appropriations out of the public treasury and charges his venal political obligations to the taxpayers."

"If I thought this measure a proper one, I could and would vote for it. But, believing with thousands of former service men who have written me that it is not a proper one, if I should vote for it it would be a simple matter of barter, in which I use the people's money to buy somebody's vote; in which the account of my political expenses would be charged to the taxpayers."

"Of course, you understand that I have at all times supported and stand ready to support any measure which will help the disabled veteran."

At the outset of his letter Senator Borah said he had taken his position on the bonus "after great consideration and with much reluctance. He added that he understood perfectly the criticism it would bring and "the condemnation it would invite," but believing that his position was a righteous one he could not change.

## ASCENSION PARISH SOLVENT.

New York, April 23.—The Rev. Percy Stickney Grant, rector of the Church of the Ascension in Lower Fifth avenue, today denied published reports that he had voluntarily reduced his salary from \$10,000 to \$5,000 a year in order to help meet a threatening deficit in the church. He admitted that a program of economy had been introduced but said that the parish was solvent in every respect.

## INJURED BY STILL BLAST.

New York, April 23.—The police announced tonight a charge of murder would be lodged against Antonio Chichillo for the death of his wife, 36, who today succumbed to a burn received in the explosion of a still in their Brooklyn home last Thursday. Chichillo also was seriously hurt and the homicide charge will be withheld until his recovery.

## DEPEW, 88, WILL BE ON JOB AS USUAL THIS MORNING

New York, April 23.—Chauncey M. Depew celebrated his eighty-eighth birthday anniversary at his Manhattan home today by meeting several old friends and reading hundreds of congratulatory messages from all parts of the country. He declared he would continue his work as chairman of the board of directors of the New York Central railroad, saying he intended to be at his office at 9 o'clock tomorrow morning.

## ANOTHER CRISIS AT GENOA PASSED

Germans Will Not Reply to Note  
Stipulating Allied Reservation  
on Russo-German Pact

(By the Associated Press.)

Genoa, April 23.—Another crisis in the economic conference was averted tonight when the German delegation announced after a long session of its delegates and frequent communication with the Russians and Italians that the Germans would not reply to the note of the ten powers today stipulating that the signatories "expressly reserve for their governments the right to declare null and void any clauses in the Russo-German treaty which may be recognized as contrary to existing treaties."

The Germans also decided to settle by private negotiations the difference between M. Barthou, head of the French delegation, and the German chancellor, Dr. Wirth, which arose through M. Barthou's written charge that the Germans have made untruthful statements.

Premier Facta and Foreign Minister Schanzer, of the Italian delegation, are believed to have been responsible for this peaceful settlement of what seemed to be a hopeless barrier to real progress accomplished on economic and financial work.

Paris, April 23.—The reservation clause in the Allied note to the German delegation, which would annul any clause in the Russo-German treaty that might be contrary to existing treaties, was added, according to The Temps correspondent, at M. Barthou's suggestion.

Rome, April 23.—The Vatican denied the existence of any treaty between it and Soviet Russia. It was learned at the Vatican today that there had been no reestablishment of diplomatic relations with Russia.

The Holy See is preparing to send an expedition of Jesuits and others to Russia on work purely in connection with succoring the famine-stricken regions.

The expedition, it is stated, will have no missionary or other religious aims. The Holy See already is in direct communication with the Moscow government to procure the necessary permits for the expedition and also promises for its protection. Individual permits for the personnel have been applied for.

## VIRGINIA MINERS ON TRIAL TODAY

Treason, Murder and Conspiracy  
Charged Against 125 Men Who  
Participated in Disorders

Charlottesville, Va., April 23.—Treason, murder and conspiracy head a list of charges against 125 men whose cases are set for trial tomorrow in this little county seat of the eastern most county of the state. Here juries selected from the agricultural community, quite unlike the mining regions further west, are to seek the true facts on disorders that involved thousands of coal miners sympathizers last August and September almost 250 miles away.

The charges grew out of the march of miners across Boone county, just south of the center of the state, to the border where it adjoins Logan county, one of the great non-union coal fields of the state. Along the mountains and creeks that mark the county borders Logan county forces, made up of deputy sheriffs, state police and citizens from many of the southern counties including not a few from the state capital, Charlottesville, met what they considered an invasion, and a six-day fight ensued, ending only with the disarming of the marching forces by federal troops who sent them to their homes.

Then followed numerous indictments in the Logan county courts, and in Kanawha county, in which the charges were stated, until the number of men against whom charges were lodged, grew beyond the possibility of strict accounting. The 15 indictments brought at different terms of courts in the two counties contains a total of some 1,500 names, but as many of these were duplicated where several charges were brought in different indictments against the same men the number of defendants actually is much lower. A petition for a change of venue at the last term of the court in Logan county resulted in transferring the cases of 125 of the union officials and members to Jefferson county, it being claimed that a fair trial could not be obtained in Logan county.

Fifty-four men are charged with treason, the number including many of the district and sub-district officers of the United Mine Workers, with C. Frank Moore and Frank Mooney, president and secretary respectively of district 17, among the most prominent. In the indictment it is alleged that the defendants raised an army and waged war against the state of West Virginia in an attempt to overthrow the martial law in force when the county was taken over by federal troops and toward which the march was said to be directed.

## REPORT IRISH ARMY LEADERS IN AGREEMENT

Peaceful Arrangements in Con-  
nection With Future Policy of Both  
Sides Expected to Follow

## BIG STRIKE TODAY

Reports Indicate Universal Observ-  
ance Throughout Southern Ire-  
land of Shut-Down

(By The Associated Press.)

London, April 24.—An agreement has been reached between the military leaders of the Republican and Free State forces in Ireland, says dispatch to the Westminster Gazette from Dublin. This will constitute the basis for peaceful arrangements in connection with the future policy of both sides and profoundly influence events in Southern Ireland for the better, the dispatch adds.

The correspondent claims authority for this announcement and says he understands that in consequence of the agreement arrived at, hostilities between the rival forces are to cease, although the political issue between the two parties is not affected.

The decision, it is added, followed negotiations between the respective leaders who have been deeply influenced by the fratricidal character of the struggle as well as by consideration of the effect upon the national situation.

The question of acceptance or rejection of the treaty, according to the dispatch, will be left for the people to pronounce upon, untrammelled by any interference.

The correspondent expects an early official announcement of this decision, which he says has much importance in view of the resumption of the peace conference, and that it may be discussed in the Dail tomorrow during the current week. He asserts that the agreement is not traceable to the strike called for today (Monday) to which the leaders of the two forces attach neither consequence nor importance.

It is added by the correspondent that arrangements are also being made to remove the cause of complaint with reference to the discipline of the newly-formed forces at Beggar's Bush and other barracks.

Advices received from the country regions indicate that there will be universal observance throughout Southern Ireland of the one-day general strike called for Monday. Trains from the north are not expected to pass over the boundary, and the sailing of cross-channel vessels will not be suspended.

The postmaster general desires to maintain a limited telephone and telegraph service for official and hospital purposes, but the postal union has objected to this.

A mass meeting of the Labor party will be held at noon Monday in O'Connell street. Addresses in denunciation of militarism in Ireland will be delivered from three platforms.

## FALL PRIMARIES TO BE HELD SEPT. 19TH

Registration Days in Oneonta and  
Other Municipalities October  
13, 14, 20 and 21

Albany, April 23.—General election day this year falls on November 7 and the fall primaries will be held September 19, according to the official political calendars issued today by Secretary of State John J. Lyons.

Registration days in New York city this year will be October 9-14, inclusive. With the exception of the last day, when registration places will be open from 7 a. m. to 10:30 p. m., registration in the greater city will take place between 5 and 10:30 p. m.

In municipalities of more than 5,000 inhabitants, except New York, the dates for personal registration are October 13, 14, 20 and 21.

September 27 is the earliest date on which state and judicial conventions may be held. October 3 has been fixed as the last day of filing nominations, October 6 is the last day for filing declarations and October 10 is the last day on which new nominations may be filed.

## ANOTHER WEEK OF UNUSUAL ACTIVITY

Despite Depressing Influences, Market Advances on Largest Transactions in Three Years

New York, April 23.—The financial market experienced another week of extraordinary activity at mounting prices, regardless of national and international happenings, which in normal times might have acted as deterrents to speculative enthusiasm.

Despite the extension of the coal strike and its effect upon the industrial situation and the Genoa conference with its unexpected complications, the stock market advanced to higher ground on the largest transactions of any similar period in almost three years.

The enormous turnover represented to a disproportionate degree the operations of professional interests. It was generally conceded, however, that public participation figured to a greater extent than at any time since the markets of the war period.

The bond market kept time with the lively pace set by the stock list. New issues for the week, exclusive of various minor underwritings, approximated \$150,000,000 and total offerings for the current movement already exceeded those of March.

Money conditions were a greater factor in the advance than at any previous period of the movement. In the open market, call loans were practically "pegged" at three and one-half per cent, but even at this low rate was shaded in many private negotiations. Time funds of one to three months were obtainable at four per cent, although quoted at 4 1/4 to 4 1/2, and bank acceptances and commercial paper rates relaxed.

The slight disturbance to international currency which followed announcement of the Russo-German treaty was cited as strong proof that the foreign exchange market had reached a stage of stabilization. It is understood that barring unforeseen events the request of the European powers that American financial interests be represented on the Inter Allied reparations commission will be accepted.

## WHEAT SUPPLY AMPLE

Enough of the Grain to Supply All Nations of World.

Surplus of 11,800,000 Tons in Exporting Countries From Year's Crop—Increased Production in Wheat Is Shown.

Rome.—After setting aside the quantities of wheat required for home consumption until the next harvest, the wheat exporting countries will have an exportable surplus of 11,800,000 metric tons, says a statement concerning the world's wheat supply just issued by the International Institute of Agriculture.

It is impossible to form an accurate estimate of the quantities the importing countries will require before the end of July, when their next wheat crop will be gathered, adds the statement, but it is ascertained that the aggregate wheat crops in the importing countries which are furnishing data to the institute will be considerably larger than last year, being 27,700,000 metric tons, as compared with 21,900,000 metric tons last year.

Imports of all the importing countries together between August and December, 1921, were larger than the previous year, and, supposing the shipments between January and July of 1922 reach the same figure (despite the increased yields and additional quantities imported during the last five months, the totals, according to the institute, will still be within the limits of the exportable surplus. It is even probable that an exportable surplus will still exist in August, 1922.

The aggregate showing of wheat during this winter extended to 107,000,000 acres, or 1.3 per cent more than last year. Rye sowings reached 20,000,000 acres, or more than 12 per cent greater than last season.

A reduction in the areas under wheat occurred in Europe, and there was also a slight reduction in the wheat area in the United States, but this is neutralized by an increase in India. Rye sowings increased both in Europe and the United States.

English Photographer Bluffs Way Past Guard at St. Peter's in Rome.

Rome, Italy.—The rule of Cardinal Gasparri, enforced by the Swiss guards that no photographers were to be allowed inside of St. Peter's on the day of the coronation of Pope Pius XI, was broken at least once.

The staff photographer of an English newspaper, wearing a top hat and bearing a beautiful leather valise, presented himself at the bronze gates when the crush was at its height.

"No cameras allowed in," the huge Swiss guard informed him in a tone of finality.

"Camera nothing," responded the photographer haughtily. "this is a medicine case. Please let me pass that I may render aid to the injured."

"Pass right in, doctor," the Swiss guard said, humbly.

## ALL RUSSIANS ARE SURE TO WELCOME TREATY, SAYS MRS. HARRISON

By Marguerite E. Harrison.

War Correspondent, Who Spent a Year and a Half in Russia During 1920 and 1921, Ten Months of the Time in Prison.

New York, April 20.—The impression created in Russia by the latest move of Tchitcherin in signing the commercial treaty with Germany at Genoa will undoubtedly be a favorable one. The relatively small number of people who understand European politics or who have any articulate opinions will probably approve his action, irrespective of their party convictions.

While most Russians fear and dislike Germany and have a dread of German exploitation, they understand the Germans and their methods of doing business and have great respect for their organizing ability.

For a long time, ever since it became evident that Russia would have to be rehabilitated economically largely through the services of foreign experts and technicians, the Russian have been resigned to the thought that the Germans would probably do it.

They will also view with a certain amount of satisfaction an agreement with a power which renounces all claims against Russia and does not demand its share of the imperial debts.

Can't Meet Her Debts.

It is obvious that even if the Soviet government recognizes in principle the debts of the former government and claims for nationalization of any damage to foreign property since the revolution, Russia will not for many years have the wherewithal to meet these obligations.

The peasants have already suffered too much from the requisitioning system to be willing to submit to new taxation just as they have been relieved of this burden by the institution of the natural products tax.

The Socialists, who made the revolution to rid themselves of a government they believed to be wholly and utterly iniquitous will not be disposed to shoulder the financial burdens of that government.

The Communists will agree to the proposition with their tongues in their cheeks.

The monarchists and reactionaries who have been embittered by the failure of the allies to render them adequate assistance or to undertake military intervention in their behalf, will not be inclined to sympathize with their demands.

United in Sabotaging.

So in all probability, whatever may be agreed upon with regard to Russia's debts, the country will be practically united in sabotaging payment of its obligations unless it obtains loans or other economic assistance to effect them.

The immediate advantage to be obtained by Russia from the commercial pact with Germany will be relatively small.

Germany, beyond sending techni-

MARGUERITE E. HARRISON

clians and experts to Russia for the exploitation of certain industries and natural resources, can offer them little assistance. She can sell them her manufactured goods in return for concessions, but she cannot furnish them the loans necessary to finance gigantic reconstruction schemes or to purchase supplies on a huge scale from other countries.

Effects on Allies.

The Russians realize this fact, and they are also well aware that in many European circles there is a fear of the recrudescence of German military imperialism backed by Russia. Consequently Russia hopes to utilize the German treaty to obtain more favorable terms from the other powers.

The Japanese, who have hitherto been saying little and sawing wood will probably sit up and take notice. They have an eye to trade in Siberia and it is hardly possible that they will refuse to recognize the Soviet government and let Germany get all the pickings.

Poland, whose future market is in the east, will inevitably take alarm and insist on a closer rapprochement with Russia, even at the expense of her ally, France.

Italy and Czechoslovakia will wish to protect their own commercial treaties with the Soviet Republic, and will be only too willing to participate in any general plan for the bi-continental settlement of the question of debts and reparations.

### Less Freight to Catch Runaway.

Freight trains have come into their own in this vicinity as a means of catching runaway teams. On Thursday last while George Oestreicher was unloading milk at the Maryland reamery the team became frightened and driverless bolted up the D & F tracks toward Chaseville. A freight train happened to be passing soon after and Clifford Spencer jumped aboard and after a two mile chase headed the team off and captured it. The wagon was demolished and the horses cut and bruised somewhat. No one was injured. Mr. Oestreicher resides on the farm formerly owned by the late Michael Friery.

### DEATH AT WORCESTER.

Mrs. Paul Euard Hamilton Expires Thursday on South Hill.  
Worcester, April 23.—Mrs. Paul Euard Hamilton died at noon on

Thursday, April 20, at the family home on South Hill in this township. The funeral services were held at the home on Saturday at 1 p. m. Rev. W. D. Jones officiated and interment was in the Maple Grove cemetery at this place.  
The deceased was 24 years of age and was born in Kniry, Ky. She was married April 1, 1919, and removed with her husband to Worcester about two years ago. She is survived by her parents, husband and two infant children, to whom heartfelt sympathy will be extended in their loss. Her mother, a resident of Kentucky, was with her at the time of her death. She was a member of the Worcester grange and during her comparatively short sojourn here had made many friends.

### SPANIARD CLAIMS INNOCENCE

Jose Rodriguez, Charged With Petit Larceny, Agrees to Make Restitution, But Claims He Did Not Steal Money From Fellow Countryman

Although protesting his innocence to the last, Jose Rodriguez, of 7 Depey street, a D & H track laborer, has agreed to make restitution for the money which Julian Ybanez of the same address claims he stole from him. Rodriguez was arrested Friday night at Gilboa by state troopers and was arraigned in city court on a charge of petit larceny Saturday.

Rodriguez and Ybanez, both Spaniards, roomed together at 7 Depey street. About three weeks ago Ybanez placed a pocketbook containing \$40 in U. S. currency and 200 French francs—he had worked in France before coming to this country three years ago—in the pocket of his best coat and packed the latter away in a suitcase. Last Monday Rodriguez went to Gilboa, where he had been promised work on the New York city dam. After he had gone Ybanez discovered that his money was missing and, suspecting Rodriguez, he went to Gilboa and had him arrested.

Rodriguez protested his innocence, claiming that he had purchased the pocketbook, which was found on his person with \$11 of the \$40 and the francs missing, but consented to pay Ybanez \$75 if the latter would drop the case. Both men speak imperfect English and it took nearly all day to get the matter straightened out.

### SCHOOL FIGHT IN NORWICH

Three Tickets for Board Members Submitted and Will Be Balloted on May 2.

Norwich, April 23.—Norwich is due for a three-cornered fight when the annual school meeting convenes in the study hall at the High school building on Tuesday night, May 2. The terms of Federal Judge George W. Ray, Michael Finigan and Danforth B. Cushman as members of the board of education will expire, and they have been regularly endorsed for re-election.

The re-election of Mr. Cushman is sought by the recently-organized taxpayers' association of about 1,400 members, while Ex-mayors F. Joe Schorn and Fred D. McMullen have been named as opponents of Judge Ray and Mr. Finigan. Saturday a third ticket appeared under the name of the Citizens' ticket, which endorses Judge Ray and Mr. Finigan and substitutes the name of Dr. E. F. Gibson for that of Mr. Cushman.

The point at issue is an appropriation of \$200,000 that will be asked to build an addition to and remodel the present High school building, which it is alleged is unsafe and inadequate. The project of a new library building has been discussed, but the Citizens' ticket, in a public statement, declare in favor of deferring the library building until a later date, when building conditions are more favorable, an pledge themselves not to consider the proposition before submitting it to a vote of the people.

### Mother Dies for Child.

Mrs. Grace Yacono, aged 30, was fatally injured when struck by a milk train rescuing her seven-year-old boy when both were caught on the Lackawanna railroad bridge across the Canasawaga creek at the southern city limits on Saturday afternoon.

Mother and boy had been with a party of Italian women gathering dandelion greens down the railroad track. They were coming home when the boy ran on the bridge ahead of the train. The mother ran after him and caught him safely. She crouched down outside the rails but the step of the locomotive struck her head, crushing her skull, and she died three hours later.

Besides her husband, she leaves three boys, Thomas aged 7; Joseph, 6, and John, 3. There are no other near relatives in this country but four sisters reside in Italy. An only brother, Thomas Ralph, aged 16, was killed in the milk train milk May 25, 1904, on Chenango bridge, where he was a member of the railroad bridge gang. She had been in this country only 25 days.

## THE POLITICAL CALENDAR

Secretary of State Sends Out Statement as to Primaries and General Election—Latter November 7.

Albany, April 23.—General election day this year will fall on November 7, according to the official political calendar which has just been issued by Secretary of State John H. Lyons. The fall primary comes on September 19, with the polls open in New York city from 3 p. m. to 9 p. m. While there have been many changes in the election law, which will soon be available for distribution, no changes have been made as to the number of signatures required on

primary petitions or for independent nominations.

September 27 is the first day on which state and judicial conventions can be held, October 3 being the last day for filing nominations. October 6, the last day for filing declarations and October 10, the last day for filing new nominations.

In New York city, the registration days will be October 9, 10, 11, 12, 13 and 14, while in cities and villages of 5,000 or more persons, except New York city, the registration days this fall will be October 13, 14, 20 and 21.

In the smaller places where the non-personal registration is permissible, October 14 and 21 are the dates. Under a new provision of the election law all statements under the corrupt practices act must be filed within twenty days after election. Copies of the political calendar may be had by applying to Secretary of State Lyons.

## THE UNBROKEN SPHERE.

"The world," Lloyd George has told his associates at the Genoa conference, "is one economic unit. Economically it is not ever two hemispheres—it is one round, unbroken sphere. For that reason I regret that the great American republic is not represented here. Much that has happened and is happening in Europe makes Americans cautious in interfering in our affairs. But if we can set these things right at this conference, I feel sure that America will not merely come in, but come in gladly."

The British premier shows a good understanding of American sentiment, as usual. It is hoped that this statement will prove to be not merely a warning but an incentive to the statesmen gathered at Genoa.

All of them are eager for American co-operation and support in the task of reconstructing Europe and restoring international finance and trade. The best way to obtain what they want is to demonstrate that any help which may be given them hereafter will not be wasted. If they can avoid breaking up in a row at Genoa, and make some sort of beginning in unity and co-operation among themselves, that will afford the desired demonstration.

That is the way of salvation for Europe and, incidentally, of future prosperity and progress for America.

## PROTESTS AGAINST LAW

In a hearing on Saturday before the Lockwood committee in New York, Samuel Gompers, president of the American Federation of Labor, protested against the passage of laws to curb the powers of labor unions, and asserted that organized labor should be allowed to select its own representatives in the courts.

When a large number of instances of alleged abuses were recited by Mr. Untermyer, the head of the federation, stated that while they were untrue, regrettable and unjustified, he did not believe that the courts of the state should be given power to grant redress.

The utterances of Mr. Gompers if he intended to give them such wide application as the publicists and reporters are in themselves, to use his own words, "unwise, regrettable and unjustified." Carried to their logical conclusion, they would place members of the unions in every instance outside the jurisdiction of the law, making them amenable only to the unions to which they belong.

This would create the government within a government without responsibility to the people. It would place the power of the law in the hands of a few men, claiming for itself full protection from the state.

It is not likely that the members of the various unions as a whole will approve of the utterances of Mr. Gompers. The better class of them certainly would not, since they are first of all Americans, and obedient to its laws.

Announcements have been issued of the third annual auction sale of imported cattle from the island of Jersey to be held at Meridale Farms on Thursday, June 8th, the sale to take place rain or shine under the modern sale pavilion. Lunch is to be served at 11:30 o'clock and the sale begins promptly at 12 o'clock.

Mr. W. Ayer, founder of the Meridale herd, in a personal announcement states that 34 years ago this herd was founded and in the years since more than 5,000 Jerseys, all pure bred, have had their home on Meridale Farms, most of them having been born there.

## MRS. COLLINS DISCHARGED

Judge Hill of Chenango Holds Quinqueville Woman Fired Fatal Shot to Defend Herself—Acquitted Woman Leaves for Oneida.

After a hearing in chambers at Norwich on Saturday, in which the evidence of Mrs. Frances L. Collins and George West was taken relative to the shooting of Nicholas Collins by his wife above named, on Wednesday evening of last week, County Judge James P. Hill of Chenango ordered the discharge of the prisoner on the ground that the shot fired by her was in self-defense.

After hearing the evidence of the two parties named, Judge Hill ruled that while there was difference at material points in the evidence of West and Mrs. Collins, the acceptance of the story of either showed that Mrs. Collins was apparently justified in shooting her husband.

The difference in testimony offered by the accused woman and West was concerning the station of West when the fatal shot was fired. In his testimony, Mrs. Collins maintained that West left the farmhouse before she fired the shot which killed her husband; while West, testifying in turn, declared that he was in the room with Collins and that Mrs. Collins was in an adjoining chamber.

The trouble which culminated in the shooting of Collins Wednesday night is believed to have started more than three years ago when alleged mistreatment at the hands of her husband caused Mrs. Collins to leave their home and retire to live with her daughter, Mrs. Shirley Collins, at Oneida. At various times since then, it is alleged, Collins made attempts to bring her back to live with him, but memory of her former alleged mistreatment caused her to refuse on each occasion.

Early in the evening Mr. West came to the house to assist her in putting up a stove and some time after her husband, carrying a rifle, came to the house. He, it is alleged by Mrs. Collins, ordered West to leave the house, which she declares he did. Then, it is said, Collins placed his rifle in a corner and started a quarrel with his wife.

It is alleged that he took a 22-calibre revolver from his pocket and began pulling the trigger. Five times the gun refused to fire, and at the last attempt did fire but the ball went wide. Mrs. Collins sought to escape, but falling in this effort she carried in the pocket of her coat, and without drawing the weapon from the pocket, fired through the cloth. The shot went wild, but a second bullet struck Collins in the right breast and penetrated both lungs. He walked from the house and into the yard, where he collapsed.

West, not realizing that Collins was dead, telephoned to Dr. Carl Meacham at Greene, six miles from the scene of the shooting. He was reaching to the scene when announcement came that Collins was dead. He summoned Sheriff Leon M. Walworth of Norwich and District Attorney Ward N. Truesdell of Sherburne, and together they visited the Quinqueville farm.

Mrs. Collins was arrested and brought to the Chenango county jail. West was subsequently held in jail, it is alleged, as a material witness in the case.

On Saturday night Mrs. Collins, accompanied by her daughter, Miss Shirley Collins, and other relatives, left for Oneida, where it is expected that for some time she will remain.

Her discharge at this time does not prevent a charge against Mrs. Collins being presented to the grand jury at some future date should additional evidence of an incriminating nature come to light. David P. Lee has been retained as her attorney.

Besides her statement and that of West, Dr. Thomas F. Manley was sworn to show that it was possible for a man wounded as Coroner Morse testified Collins was, to walk the distance of 35 feet from the room in the house where the shooting took place out of doors down the steps to the place in the back yard where he was found dead. A diagram of the house and premises, made by City Engineer Brush, was identified and used.

Mr. West corroborated Mrs. Collins as the threats made by him to his wife, who chased her about the room with a club and raised it as if he would strangle her. He broke the furniture and threw some articles out of doors. West described Collins' actions by saying he seemed to have a spasm.

WANT UPPER EAST IMPROVED.  
Township Residents Circulate Petition to City Officials.

Town residents along the reservoir road have circulated a petition addressed to the board of public works of the city requesting the repair of Upper East street, which will be presented to the board, it is expected, at its next regular meeting.

The petitioners call attention to the fact that the town has improved one mile of the road beyond the city line and plans further improvements farther up the valley, and suggest that it would make the highway of greater value and give a better road to the city for the residents not only along the reservoir road, but on to the north into the towns of Laurens and Milford.

Unquestionably the city should give consideration to this important thoroughfare and co-operate with the town in making the avenue of approach in every way better. There exists in the territory especially interested a large number of prosperous farmers, and their desire to secure better highways and streets should be given all the encouragement possible, and it is quite probable that the needs of Upper East street have, with the pressing demands from all sections of the city for street improvement, not received the consideration they should have been given.

**Given Birthday Surprise Party.**  
Members of the Never Silent Embroidery club gave a birthday surprise party to Mrs. Edward Burger of her home, 3 Cozy avenue, Thursday evening. The evening was pleasantly spent with games and music, and appetizing refreshments were served. Mrs. Burger was presented with a handsome leather pocketbook as a token of the esteem in which she is held by the members of the club.

## MADE TOPIC FOR SERMON

New York Pastor Delivers Sermon on "Over the Hill," Which Opens Engagement at Strand Today.

That the motion picture drama is the best medium for the moulding of sentiment toward preservation of the sacredness of the home was the declaration of the Rev. Lincoln Caswell, pastor of the Crawford Memorial church, New York, during a sermon delivered on "Mother and the Fifth Commandment." Dr. Caswell elected to choose his topics for Sunday night sermons from the stage and the screen. He selected recently as his topic, "Over the Hill," the William Fox film production which is to open a local engagement at the Strand today and continuing for four days.

"We need in America today all possible influences to preserve the sacredness of the home," said Dr. Caswell, "and no instrument I know of is as powerful in the moulding of sentiment as the motion picture drama. It is therefore a matter of genuine congratulation that this particular story, 'Over the Hill,' is now presented with such amazing success. Now has arrived the opportunity for which the church has looked and prayed—the opportunity of seeing the truth in terms of practical and attractive realism. I am sure that ten

sermons would not produce the effect that one showing of 'Over the Hill' does; and this goes on three times a day, week after week.

"The picture sends a young man home to write that love letter to his mother, or to carry her a handful of violets, or to send her a larger check than usual, or to rush in upon her with a hug and a kiss and an appreciation which she longs for. I say to you that a picture that will send men to their homes to do things like these is a mighty sermon in the real sense of the word. We need a preaching like this in America today. No pulpit is so effective or reaches a larger congregation than the pulpit of the motion picture screen."

## BUSY MONEY

The Mutual Life received from policy holders in 1921 the sum of \$91,379,898, and paid to policy holders and their beneficiaries the sum of \$93,239,238, which was \$1,859,340 more than it received from them. How busily this vast inflow and outflow of dollars worked, the following interesting figures show:  
(In 302 working days of eight hours each)

	Received from Policyholders	Paid to Policyholders	Or an Excess of Payments to Policyholders
Every second . . . .	\$10.51	\$10.55	\$0.44

## It'll wash them all

**MAKES** no difference what they are—fluffy, frilly undergarments, fine linens, heavy blankets or sheets—the 1900 Cataract Electric Washer with its magic figure 8 motion will wash them all!

It is that wonderful figure 8 movement—an exclusive feature of the 1900—that makes it the perfect washing machine. By means of it, the hot soapy water is forced through the clothes in a figure 8 motion four times oftener than in the ordinary washer.

Then there's that shiny copper tub—nothing in it to cause wear and tear on the clothes. Not a single part to lift out and clean when the wash is finished!

You'll like the swinging reversible wringer, too. It also works electrically, and can be shifted to any position.

If you would like to try the 1900, and see for yourself what it can do, we will deliver one right to your home, and you can try it out. Then you may start paying for it on terms to suit your convenience.

#### LOCAL MENTION.

—The Recreation club dance will be held this evening at the High school and each Monday regularly hereafter. No dances have been conducted the last two Mondays because of the Easter holidays.

—The supper at the Main Street Baptist church on Saturday evening was largely attended and everybody was pleased with the excellent repast which was served. The receipts were \$84.

—The bake sale of the Lady Macabees at Hutson's drug store on Saturday netted \$14; and the only thing which prevented its being much more was the fact that the supply of viands was quickly exhausted.

#### VAULT UNDER CONSTRUCTION

Work begun on receiving vault at Glenwood cemetery.—To be constructed entirely of concrete with capacity of 60 bodies.

It is expected that excavating will be finished today for the receiving vault planned for Glenwood cemetery and that work on the structure itself will be commenced immediately. Approximately two months will be required for the construction of the vault, which will have a capacity for 60 bodies and will be constructed of concrete in accordance with the most modern ideas.

The vault, which will not contain crypts, but will be used simply for the keeping of bodies through the winter, will be located 28 feet back from the sidewalk on the plot of ground between the street and the drive up the hill. It will be 30 feet wide, 20 feet deep and 18 feet in height and will be built entirely of concrete. The doors, which will face Main street, will be either of copper or iron.

A feature of the vault which cannot be found in other vaults so far as the cemetery officials can ascertain will be the method of construction which will make the interior about 16 degrees warmer in winter and cooler in summer than the surrounding atmosphere. This will prevent the alternate thawing and freezing of the bodies. Air pockets between the outer and inner walls will be constructed to accomplish this result.

No contract for the construction of the vault has been let, the work being done by day labor under the close supervision of the cemetery officials. Brydon Hawver has been placed in charge of the construction.

#### MASONIC MEMORIAL HOSPITAL

Oneonta Masons in Vest Through at Dedication at Uta Saturday of the Soldiers' and Sailors' Memorial Hospital at the Masonic Home—Huge Parade Precedes Ceremony.

With 30,000 members of the fraternity from all parts of the state in attendance, the Soldiers' and Sailors' Memorial hospital at the Masonic home at Uta was dedicated Saturday with impressive ceremonies conducted by Grand Master Robert H. Robinson assisted by his associate grand officers. The dedication was epochal in the history of Free Masonry in New York state, as the hospital is the tribute of the order to the memory of the members of the craft who lost their lives in the World war.

The ceremonies were preceded by a mammoth parade, in which thousands of Masons, many of them ex-service men in uniform, participated. Some idea of the immensity of the procession, which marched from Baggs' square to the Masonic home, a distance of three miles, can be gained from the fact that it took over one hour to pass a given point. Genesee street had been beautifully decorated for the occasion and the sight of the thousands of men marching to the spirited music of a score of bands between rows of spectators filling every possible vantage place was an impressive one.

The ceremonies of dedication took place in front of the hospital and were very impressive. They were conducted by Grand Master Robinson and a staff of grand lodge officers, assisted by many other Masonic dignitaries from all parts of the state. The singing of the children of the home, led by its famous boys' and girls' band, constituted an appealing portion of the program. The oration of the day, in which mention was made of the patriotism of the 35,000 Masons of the state who fought in the war, and of the supreme sacrifice of the 2,000 in whose honor the hospital was erected, was delivered by Deputy Grand Master Arthur S. Tompkins.

The ceremonies at the hospital were permitted to inspect it. The hospital was erected at a cost of over \$1,000,000 and represents the last word in construction and equipment. It is the largest hospital in Uta and one of the best equipped in the state. A staff of physicians and nurses will minister to the ailments of distressed members of the order who are admitted. The hospital contains 232 beds at present.

The money expended in its construction was the residue of the war fund raised by the 234,000 Masons in New York state for relief of their brethren bearing arms. The furnishings have been provided for by individual lodges and general contributions. The money for its maintenance for five years has been provided for by contributions among members of the order, after which the income from an endowment fund is expected to carry along the major expenses. The new structure forms a striking addition to the group of fine buildings in the beautiful Mohawk valley, comprising the Masonic home, where needy and aged members of the order and their dependents live.

Among the Oneonta Masons attending the dedication were F. M. H. Jackson, who, as one of the Grand lodge officers, participated in the ceremonies, E. W. Spencer, S. A. Disbrow, Morey Hall, U. A. Ferguson, C. E. Carrington, H. E. Gorham, George E. Moore, Edwin R. Moore, Byron Chesbro, Dr. J. C. Smith, Dr. W. S. Cooke, William B. Mason, Eugene Field, Homer Ford, Ben Mahaffy, L. D. Vordermark, Stuart Mann, J. K. Herrick, Raymond Tucker, A. T. Mills, Merton Dean, Walter Cain, A. R. Benedict, Earl Hall and Myron Mull. The trip was made in privately owned cars, the party leaving Oneonta about 10 a. m. and returning in the early evening.

#### FUND FOR WAR VETERANS

Commissioner Will Be Named in Otsego County to Help Administer State Fund of \$1,000,000 for Unemployed Disabled Veterans.

By the provisions of the Bondage bill recently signed by Governor Miller, which creates the Veterans' Relief commission to administer a fund of \$1,000,000 to aid disabled soldiers of the World war out of work, a deputy commissioner will be appointed for Otsego county to supervise the work in the county.

The position carries no salary and the man to be named by the commission will be selected because of his interest in former soldiers and his general fitness to see to it that the state position. At least two ex-service men residing in Oneonta have been mentioned for the position and there will doubtless be candidates from other portions of the county.

#### NO CATERER YET SECURED

No Easy Task Presented to House Committee of Country Club.

No easy task is that presented to the house committee of the Country club in securing a caterer for the summer and with only a few weeks yet to elapse before the usual opening of the clubhouse for the summer. Chairman Leslie Gardner and his associates are becoming a bit anxious while members who dine there frequently each summer are also concerned.

It is no easy task to secure a woman capable in both culinary and executive ways for the task. Mrs. Killenny who has given excellent satisfaction for the past two years feels that she cannot spare the time from the Broad street restaurant and others who have been favorably considered have been obliged for one reason or another to abandon the idea.

With good management and satisfactory service the opportunity can be made profitable and a goodly sum realized for the summer's work. Chairman Gardner would doubtless welcome any helpful suggestion that will relieve the committee of the anxiety and aid in securing a competent woman or man and wife for the place.

## EDWARD STEVER OF ONEONTA MURDERED AT ELKLAND, PA., ON SUNDAY MORNING

Was Engaged in Doing Night Police Duty in That Village When Unknown Assailant Fires Two Bullets at Him, Both Taking Effect—Leaves Wife and Three Children Here From Whom He Had Separated—Former D. & H. Trainman, Who Had Done Work as Private Detective and Special Officer.

Corning, April 23.—Edward Stever, aged 45 years of Oneonta, employed as night watchman at Elkland, Pa., 20 miles south of Corning, was fatally wounded at 1:30 o'clock this morning by an unidentified assailant who is still at large and who left nothing in the way of a clue. Stever approached the map as the latter was passing through Buffalo street to ascertain who he was because of the lateness of the hour. When Stever accosted the man with, "Well, what are you doing here?" the murderer pulled a gun from his pocket and fired twice, both bullets taking effect, one passing through Stever's right arm and the other through the right chest. Stever died a few hours later.

The only description of his assailant given by Stever during the few minutes of consciousness after he was found "was that the fellow wore a slouch hat, gray coat and black trousers, but he was unable to give any definite description of the man's age or personal features."

The police departments of Southern New York and Northern Pennsylvania have spread a dragnet hoping to round up the murderer of their fellow officer.

Otis Preston of Elkland, who picked Stever up and carried him to a physician's office a few minutes after the shooting, saw nothing of the escaping man.

The police are working on the theory that the murderer is wanted for some other crime or a bootleg deal and fearing that he had been recognized by the officer, shot him to make a getaway. Other officers believe the shooting was done in revenge for the dry raids staged shortly after Stever went to Elkland at which time several men were arrested and several stills taken. Stever was the only police officer in Elkland. He

leaves a wife and children in Oneonta. The remains will be taken there for burial tomorrow.

Edward Stever, mentioned in the above dispatch is well-known in this city and his wife and three children reside on Wells avenue. He was formerly employed by the D. & H. company as trainman and worked for the company several years. Later he was at one time employed as watchman by the Batur Chemical company and he is understood, was in the employ of the signal department of the D. & H. More recently he has been a painter.

Last year Stever had some differences with his wife and after separating he kidnapped one of the children and was arrested in Blackinton and was frequently in the courts at that time. At one time he posed as a private detective and it is understood he was employed to do some work of that sort both here and in Binghamton. In the latter city he was employed for a few months by the Citizens Alliance. It is understood here that he had been in Elkland only a few months.

At a late hour yesterday Mrs. Stever had received no particulars, a telephone message from the sister of the murdered man stating that he had died at Elkland from injuries sustained when shot by an unknown assailant being all the intelligence about the crime she had received. She planned last night to leave this morning for Elkland but later developments may cause a change in her plans. It is the dispatch from Corning states, the body is being shipped to Oneonta.

#### ALPHA DELTAS BANQUET

Enjoyable Sorority Convention Comes to Close at Banquet in Oneonta Hotel Saturday Night.

The delegates of the Alpha Delta sorority in convention at the club rooms of the local chapter held a business meeting at 10:30 Saturday morning. In the afternoon at 2:30 the annual sorority tea was given at which all members of the local chapter and the visiting delegates were present. The affair was informal and the guests enjoyed themselves thoroughly. The sorority tea is always one of the most popular events of the annual convention.

At 6:30 p. m. Saturday the annual banquet was held at the Oneonta hotel, at which all the delegates were present. The committee in charge of the refreshments provided for the following menu:

"Cream of Celery Soup"  
Olives  
Roast Turkey with Dressing  
Cranberry Sauce  
Lettuce Salad  
Mayonnaise Dressing  
Neapolitan Ice Cream  
Chocolate Cake  
Dessert-Tasse

The toastmistress was Miss Doris Coats of the O. N. S. Alpha Delta Beta, who proved a very able and graceful toastmistress. The following toasts were given:

"Guests"—Junior Delegate, Alpha Delta Gamma, Fredonia.  
"The Modern Teacher"—Junior Delegate, Alpha Delta Delta, Cortland.  
"The Modern Mother"—Junior Delegate, Alpha Delta Epsilon, Geneva.  
"The Modern Girl at a Dance"—Junior Delegate, Alpha Delta Alpha, Brookport.  
"The Hostess"—Junior Delegate, Alpha Delta Beta, Oneonta.  
The toasts were all of a humorous vein and were much enjoyed by the assembled delegates. The delivery of the toast "The Modern Girl at a Dance" was repeatedly interrupted by hearty bursts of laughter. Later the delegates joined in singing sorority songs. After the banquet Cannon's orchestra furnished music for the dancing.

### WELL KNOWN IN DELAWARE

William Lockwood, former Resident of Margareville, Pa., who was born in Delaware, 48 Spruce street, of Pennsylvania, died at his home, 48 Spruce street, Sunday morning at 9:30 o'clock, from a week's illness from pneumonia following influenza, with complications.

The funeral services will be held on Wednesday at 1 o'clock at the Methodist church at Margareville, the funeral party leaving here at 9 o'clock that morning. It is expected that Rev. Lincoln R. Long, of New Kingston, a former pastor and a long-time friend of the deceased, will officiate and interment will be made in the cemetery at that place.

Mr. Lockwood was 70 years of age on March 30th last and had followed farming all his active life until four years ago when he retired and located in Halcottville, where they resided until their removal to Oneonta. He married when a young man Miss Mary Stack of Arena and she with three sons, Claude, residing at 55 East street, Scott, of 10 Cherry street, and Floyd Lockwood of 7 Wells avenue, survive him. He leaves also two sons, Mrs. Susie Fowler of Fleischmanns and Mrs. Eber Hicks of Halcottville.

Mr. Lockwood was an attendant of the Methodist church at Margareville and enjoyed the respect and esteem of all residents of that section, in which he was well known. The sympathy of all friends of the family will be extended them.

### WILL OF EDWARD FORD

After Making a Few Specific Legacies Creates a Trust Fund With Generous Provisions for Widow — Fund Eventually Goes to Sisters of Deceased or Their Children.

The will of the late Edward E. Ford, long a druggist and well-known in this section but for years retired, has recently been probated before Surrogate Huntington and disposes of an estate estimated to be on present quotations of stocks and bonds in his possession, at about \$200,000. He had upwards of 1,200 shares of the Computing-Tabulating-Recording company quite popular with Oneonta investors. Mr. C. Hemstreet is named as executor and the Citizens' National bank is made trustee of trust funds created.

Mr. Ford makes the following specific bequests: \$5,000 to Mrs. Carol Stewart Smith of New York city; \$5,000 to Mrs. Edith Smith Shannon of Larchmont, daughter of Mrs. Ford; \$2,000 to Mrs. Carrie P. Houser, a sister of the first wife of Mr. Ford; \$2,000 to Bertha Griffin, who had long been employed in the household of Mr. Ford.

The will also sets aside \$10,000 as a fund, the income from which is to be used for the maintenance and upkeep of the residence of the deceased on Walnut street so long as it is occupied as a home by the widow.

All of the residue of the estate is placed in a trust fund to be administered by the Citizens' National bank, from the returns of which a generous amount is to be paid annually to the widow during her lifetime and the surplus income each year is to be divided among the five sisters of the deceased.

At the death of Mrs. Ford the estate is to be equally divided among the five sisters of Mr. Ford, the share of any sister that may be deceased is to go to her surviving children. The will is considered very fair and just and displays the same good business judgment that the deceased displayed during his business career.

### TRAGIC DEATH OF A. O. BRIGGS

Well-Known Attorney Falls Beneath Elevated Cars on Friday — Was Native of West Laurens — Funeral Today at Canastota.

Friends and relatives in Oneonta received notice Saturday morning of the death in New York city on Friday of Albert O. Briggs esq., a native of West Laurens and for many years a practicing attorney in the metropolis. His death, which was instantaneous, occurred at the 104th street station of the Sixth avenue elevated line, and was the result of a fall in front of a southbound train on that line. His body was mangled almost beyond recognition when extricated from beneath the train trucks. According to the police Mr. Briggs had been at the station for almost half an hour before he fell in front of the moving train.

Mr. Briggs, who had not been in good health for some time, left his home at 7 West 102nd street Friday morning, stating that he was going for a walk in the park and afterwards to his office at 220 Broadway. He was feeling better than usual and seemed in good spirits. It is the opinion of his law partner, Charles W. Stapleton, with whom he had been associated for the last eight years, that he had fallen in a fit of vertigo.

Mr. Briggs was born 68 years ago and was a son of Mr. and Mrs. Godfrey Briggs of West Laurens. His early life was spent at that place. He graduated from the Albany Normal school, and in 1880 was admitted to the bar at Ithaca and began the practice of law at Canastota. He was for many years connected with the excise department at Albany, and for seven years prior to 1914 was special deputy attorney general for the prosecution of excise cases in New York city. He was an attorney of known ability and was widely known in the metropolis.

The funeral services, which will be conducted by the Masonic fraternity, will be today at his former home in Canastota.

Mr. Briggs was twice married and is survived by his second wife and two sons, aged 30 and 7 years, respectively, the latter a son of his second marriage; also by a brother, Delos D. Briggs, and a sister, Mrs. Edwin Webster, both of West Laurens. He leaves also many nieces and nephews, among the latter being Roscoe C. Briggs and A. B. Webster of this city.

Many friends of Mr. Briggs in Laurens and vicinity and in Oneonta where he has from time to time visited, will learn with regret of his demise.

### MARRIAGES.

**Fox-Reynolds.**

James Fox of Scranton and Miss Anna E. Reynolds of this city were married in Scranton, Pa., on Saturday, according to information received by relatives and friends in Oneonta that afternoon. Further particulars were not last evening available.

Mr. Fox, who is a brother of Captain Walter Fox of the D. & H. police force in Oneonta, was a member of the Canadian artillery force in France during the World war. On his return he came to Oneonta, where he enlisted in the D. & H. police force, with which he is now connected, with rank of lieutenant, at Scranton. His bride, who is a daughter of Mr. and Mrs. James D. Reynolds of 14 Fonda avenue, has for several years been a stenographer in the superintendent's office of the company in Oneonta. Both are highly respected young people with many friends who will extend congratulations and heartfelt best wishes.

### FREE AND FORCED OSCILLATIONS.

When a pendulum or any kind of a weight is suspended by a cord and struck a blow it will swing back and forth a certain number of times per second, depending upon the length of the cord. The number of swings per second is the rate of vibration and will remain constant as long as the length of the cord is not altered. And this is regardless of the fact that the pendulum may only swing for a fraction of a second before coming to rest. The rate remains the same. The same thing would happen if the weight were drawn to one side and let go to produce the swinging. Perhaps it is clearer in this latter case to see how the pendulum is **ALLOWED** to oscillate rather than being **FORCED** to do so. The swings or oscillations are free, since their frequency depends in no way upon the blow or displacement which starts them. An electrical circuit containing capacity and inductance, usually in the form of a condenser and a coil of wire, respectively, may also be allowed to oscillate by charging the condenser and allowing it to discharge. The frequency of the alternating current or oscillations thus created depends only upon the capacity and inductance of the circuit in actual practice. It is entirely independent of the amount of charge in the condenser before discharge. The oscillations are, therefore, free oscillations.

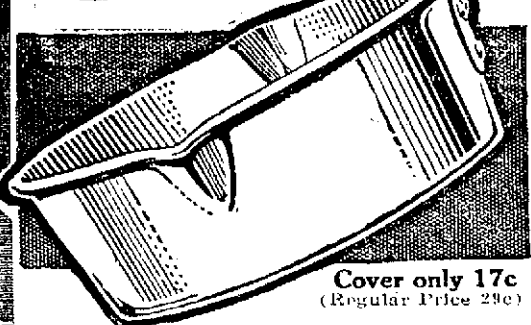

If the pendulum were held in the hand and moved back and forth the frequency of the swings would be whatever the frequency of the hand movement is. That is, the pendulum would be forced to swing back and forth with the movement of the hand, regardless of the length of the suspending cord. The oscillations of the pendulum are of course, **FORCED** oscillations. In the same manner, if there is an exciting electromotive force in a circuit similar to the one above which forces current of the same frequency as that of the E. M. F., the current is a forced alternating current or forced oscillations. For example, in an electric light circuit the alternating current has the frequency of the exciting E. M. F., regardless of the capacity and inductance of the circuit. These are forced alternations of current. We may have forced oscillations in a radio circuit under some circumstances, particularly when the circuit resistance exceeds a certain value. As a matter of fact, if the true ohmic resistance of a circuit is too high there will be no free oscillations under any circumstances. Any oscillations which do take place must then be forced by an applied E. M. F. sufficient to overcome the resistance. And in this case the frequency of the oscillations is determined by the frequency of the applied E. M. F.

### MOLINARI GRANTED STAY

Justice Tutthill at Binghamton on Saturday Gives Certificate of Reasonable Doubt Pending Appeal from Conviction in County Court.

On the application of Claude V. Smith of this city and Hon. George M. Palmer of Cobleskill, attorneys for Anthony Molinari of this city, recently convicted in the Otsego county court of violating the Mullane-Gage prohibition act, and sentenced to six months in the county jail, Supreme Court Justice Theodore R. Tutthill at Binghamton on Saturday granted a certificate of reasonable doubt pending the outcome of an appeal that has been taken to the appellate division from the verdict rendered in county court. The application was opposed by District Attorney Pierson, who conducted the prosecution of Molinari in county court.

Following the granting of the certificate bail was fixed and later in the day bail was given and Molinari was released from the county jail, where he has been confined since the sentence was imposed.

The order of Justice Tutthill was granted upon two grounds raised by the attorneys for Molinari. The first was upon the question of the wrongful admission of evidence offered by the prosecution relative to the contents of a bottle.

The second claim raised by the attorneys was the failure of the court to admit the testimony of witnesses for the defense to the effect that a person could neither see the transactions that Officer Walling testified to having witnessed while standing 60 feet away and across the street from the Molinari saloon on South Main street nor hear the ringing of the cash register within the saloon to which the officer testified.

According to the claims of Mr. Palmer, arguing for the convicted man, Tutthill admitted the evidence of Walling that while in the position named he saw a man come out of the saloon and put in a hip pocket a bottle containing something the witness knew not what. The same witness also testified that he saw Molinari step back into the rear room and heard him ring up some amount on the cash register.

The case now goes to the appellate division and the outcome will be watched with interest by many in this city, who have had more or less knowledge of the several actions brought against Molinari in connection with the conduct of the saloon since the prohibition law became operative.

### Mental Processes.

Mental habit is the great enemy of consciously correct action. It is the subconscious mind that gets in the way and causes all the trouble, for it seems to be one function of the subconscious mind to relieve the conscious mind of the burden of direct thinking with regard to many of our routine actions. A mental process of some sort is connected with every physical act, but it is amazing to learn the extent to which these mental processes are conducted by the subconscious mind. A good part of what the average man does every day is done literally without thinking, so far as conscious thought is concerned.

### The Streets of France.

Travelers in France often remark on the neatness and cleanliness of its streets, and before long they discover how they become so. Any fine morning one may see women and children sweeping the street busily, with brooms made of bunches of twigs bound together. Every speck of dirt is banished from the cobblestones, and that is why it is no hardship to walk in the streets, for in many French towns there are no sidewalks. It is the natural instinct for cleanliness that makes these women sweep the streets, for no law demands that they shall do it.

### Why Bootleg Whisky.

"Bootleg" is a pure Americanism, that grew up among the stills of the mountain country. Bootleg liquor was liquor that was secretly carried in the leg of the moonshiner's boot, because no tax had been paid on it. Usually the man who thus carried it was a native who had distilled it himself, and he became known as a bootlegger and the liquor he carried as bootleg whisky. Nowadays, of course, it is any form of liquor sold in violation of the law.

There is not a flight of imagination which will lead you to a keener satisfaction with your meals than the drinking of Kilpatrick coffee.

### WOMAN COMPANION INJURED

When Ford Coupe Driven by Dr. Dallas W. Shafer of Cooperstown Collides with Tree Late Monday Night Near Mohawk—Shafer Prominent in American Legion Affairs at County Seat.

Mohawk, April 23.—Dr. D. W. Shafer, a veterinary employed by the federal authorities in connection with tuberculosis eradication among cattle and for some time located in Cooperstown, met with a serious accident near this village late Friday night when his Ford coupe collided with a tree. Mr. Shafer sustained some bruises about the face and head and the young woman companion with him suffering a dislocation of the right hip.

The young woman, whose identity Shafer has been able to conceal from the public, was removed to a physician's office where she was given surgical treatment and it is understood that both she and Dr. Shafer have returned to their homes. The Ford coupe was badly damaged and is in the local garage awaiting repairs.

Dr. Shafer is understood to have been socially prominent at Cooperstown and to be the commander of the American Legion there. While there can be secured no confirmation of the report the rumor is current here that his companion is a well-known resident of that village. No one here will admit having ascertained the name of the companion of Shafer on this night ride.

### PROMISE GOOD BEHAVIOR

Couple Arrested for Adultery Agree to Separate—Long Jail Sentence the Alternative.

Upon their promise to live apart from each other in the future, Mrs. Grace Ward and Glen Rock, arrested on a charge of adultery, preferred by Rock's son, Earl Rock, were given suspended sentences of 180 days each in the Otsego county jail by Judge Huntington in city court Saturday.

Rock and Mrs. Ward are both married but have bills of separation from their wife and husband. For some time they have been living together at 223 Chestnut street and things had come to such a pass that Rock's son swore out the complaint. Rock has a large family of children and has not been very diligent in caring for them, having been arrested several times for non-support.

### HAD RIGHT KIND OF BAIT

Trout Bit Most Vigorously When Snowflakes Were Most Numerous.

Justice Kellogg arrived home late Friday from a two days' fishing trip into Delaware county, displaying a fish basket containing nine pounds and 13 ounces of brook trout, three ounces under the lawful limit—which he and Mrs. Kellogg, who accompanied him, caught during their absence. When questioned how it was done the genial judge declared that he had the right kind of bait.

Later it was ascertained that a supreme court order had been issued requiring some of the choicest of the trout to be assembled and according to the judge it was easy. "When the snowflakes were flying the thickest the trout bit most vigorously" was the emphatic declaration of the judicial nimrod.

When asked as to the course of procedure taken to insure that the last fish caught crowded the law's limitations to within three ounces of the limit but did not exceed it, the learned judge replied, "Young man, you should long since have learned not to attempt to cross examine the court!"

### Ticket and Freight Agents Confer.

The Ticket and Freight Agents' convention of the Delaware and Hudson company will meet at the Y. M. C. A. building in Plattsburg this afternoon. An excellent program has been prepared, among the speakers being W. J. Mullin of Albany, general traffic manager; C. W. Fisher, general agent for the Hudson Navigation company, and D. J. Crowley, company agent at Ticonderoga.

Among those from the Susquehanna division who will be in attendance will be President Edwin Martin of Cooperstown, Secretary W. E. Crockett of Oneonta and H. C. Becker of Binghamton, vice president for the Susquehanna division. Chief Dispatcher James L. Ward and General Freight and Passenger Agent E. D. Conklin of the Southern New York company will also attend the convention.

### Entertain at Neighborhood Dance.

The neighborhood dance held Friday evening by Mr. and Mrs. Charles Ryndes and Alfred McDonald at their home on Lower South Side was fully up to the standard of the locality. About 125 friends and neighbors were in attendance. The large farmhouse was well filled and dancing and cards kept everyone busy until midnight when a delicious luncheon was served, after which dancing was resumed and continued until a late hour. On this, as on many previous occasions, Mr. and Mrs. Ryndes and Mr. McDonald demonstrated their ability to entertain their friends and they received the congratulations of all on the success of the dance.

## All This is Yours for \$1065

It is, as we all know, a well-established fact that the motorist who has once owned a good "Six" can never again be contented at the wheel of any car with a less capable power plant.

In our belief, this preference is based only in part on the additional power provided by the greater number of motive impulses. Fully as fundamental is the comfort of mind and body which results from the association with a competent, smooth-working, inherently balanced mechanism.

If your driving experiences have been largely with four-cylinder cars, there is a great treat in store for you. Just nestle down behind the steering wheel of a Jewett and put it through the same tasks you ask of your "Four."

Your first surprise will come from the speed and smoothness with which the starter spins the motor. "Sixes" do start easier, quicker and with less battery drain.

Now go through your gears and see how willingly each change is followed by an immediate, unlabored increase of speed.

Push out your clutch and coast around a corner. Then, without racing the motor, roll away by accelerating

merely to car speed before re-engagement.

Pick out a grade up which your "Four" labors, vibrates and begs for mercy. The Jewett makes play of the climb and keeps steadily gathering speed all the way up.

Seek the thick traffic and see how, when an opening offers, your Jewett fairly leaps past the stolid vehicles that would hold back a less spirited car.

Now for the open road, and let the Jewett have its own way with it. Instinctively you begin searching for the vibration point which long experience has taught you marks the limit of a "Four's" comfortable speed.

You will seek this point in vain. From 3 clear to 60 miles an hour, the fifty horse power Jewett will do its work not merely without protest but with real joy and zest.

And there, in the last analysis is the charm of this superb Light "Six." A car that never seems to toil! A car, therefore, that imposes neither labor nor weariness on its driver!

By all means see to it that your next car is a "Six." Once that decision is reached, your path to the Jewett is plain and straight.
